## SAM CAMILLO KILLED AS HE SLEPT

SHOT THROUGH THE BODY WHILE LYING ON COT ON  
HIS GALLERY—HIS WIFE CHARGED WITH  
THE MURDER.

Another toll of human blood has been levied in the Brazos bottom and the life of Sam Camillo, an Italian, was the forfeit. In the early Monday morning hours, just before day, while all the world slept, a pistol shot rang out in the bottom near Stone City, rudely breaking the quiet that prevailed in the community, and those who hastened to the scene of the trouble found Sam Camillo, an Italian, lying on a cot on his gallery weltering in his own blood with a wound entirely through his body caused by a large

calibre pistol. It was apparent at once that he was mortally wounded, and though given the best medical attention, after lingering for several hours, death resulted.

It is alleged that his wife did the shooting, and she has not been seen since the shooting. Sheriff Conlee and his deputies are doing all they can to locate her, but the supposition is she has escaped, either to Houston or New Orleans, in both of which cities she has relatives.

Camillo and his wife had been sepa-

rated and lived apart for some time. Some months ago they went back together, and on Sunday night, it is alleged, they had more trouble, in which the wife was mistreated. This new trouble, coupled with the first trouble leading up to the separation, is said to have been the motive for the killing.

Later—At 2:30 o'clock this afternoon Sheriff Conlee telephoned The Eagle that friends and relatives of Camillo's wife had brought her in and surrendered her. She is now in jail, charged with murder.

Frisco to Houston were attacked here last night by a mob with clubs. One man's leg was broken and others were bruised. The strike-breakers were chased from the city.

### All Is Peaceful at Chicago.

[By Associated Press.]  
Chicago, Oct. 3.—Peace reigned in the vicinity of the Burnside shops of the Illinois Central railroad this morning. The eight hundred men still employed at the plant were not annoyed as they passed through the gates to their work. The groups of strikers outside made no attempt to interfere with them. A force of 250 policemen is on duty patrolling the Illinois Central plant.

The officials of the road insist that the strike has not so far interfered with the service. Representatives of the labor unions deny the company's claims and say that not more than two hundred men are at work at Burnside and that the entire service will be impaired in a few days unless the strike is settled.

The only act of violence today was an attempt to set fire to a box car. The police extinguished the flames.

### SERIOUS TROUBLE IN S. P. SHOPS AT HOUSTON

Two Men Shot, One Fatally, One Cut in Face and One Hit with Rock. Uncertain Who Did It.

[By Associated Press.]  
Houston, Texas, Oct. 3.—An investigation is being made today to determine if possible who is responsible for the killing of J. J. Pipes, who was shot in the Southern Pacific yards early this morning, and the injuring of S. B. Crockett, who was also shot. Gordon Knight was cut in the face and Capt. H. S. Sisk was struck by a rock.

Pipes and Crockett were special officers from Athens guarding strike-breakers, and Knight is a strike-breaker from Athens.

When the shooting occurred the strike-breakers were being escorted into the shop enclosure. A crowd of strikers was all about them. Captain Sisk says the shots came from the strikers, while Crockett is positive the shots came from the inside, he thinks from persons who mistook them for strikers in a raid on the shops.

All the injured men will recover. It is said everything was quiet in the yards this morning.
